

## CSIM FOR JAVA Order Form – Educational License

The CSIM for Java Simulation Software for the Educational License is meant for teaching (not research) uses within institutions of higher learning. Funded research projects must use one of the Corporate (Professional) Licenses. The software package consists of an archive, header and example files, documentation and the Software License Agreement. The Software License Agreement is enclosed.

CSIM for Java is distributed as a Java archive (jar) file. CSIM for Java runs in any system with Java and a JVM installed; Java development kit (jdk) 1.4.1 or higher is required

### Single Seat License

The Single Seat License allows for use on a single computer at any one time. A free Personal License for the same user is also available for use on a laptop or the licensee's home computer when it is not in use on the licensed platform. A special request which includes user and use information must be submitted.

### Departmental Licenses

The Departmental License is for use on all workstations in a departmental lab.

### Support

Installation and bug-fix support is available for 90 days through e-mail and fax only on an as-available basis through a designated support contact. An Extended Support Agreement that covers unlimited fax or email, bug-fix updates, and feature enhancement upgrades is also available. All development seats at the site must be covered.
